Bogotá, Colombia

Durante mi trayectoria como desarrollador y creador digital, eh tenido la oportunidad de colaborar en proyectos con importantes empresas en Colombia como AXA Colpatria y suramericana.

En mi experiencia profesional, eh trabajado junto con los clientes siempre cumpliendo con las expectativas en el desarrollo de los proyectos. Con una trayectoria de 1 año y 8 meses en el ámbito de programación, llevo a cabo proyectos en Back-End y Front-End a nivel profesional. Con habilidades en entornos cooperativos con un excelente trabajo en equipo y una excelente comunicación asertiva. Aplico conocimientos en implementación de pruebas automatizadas y patrones de diseño (MVC). Utilizo tecnologías como: **Java, Springboot, Python, Liferay, JavaScript, React, CSS, HTML, Bootstrap, Git, SQL, Adobe, Figma.**
